

LIGHT TUBE 22W

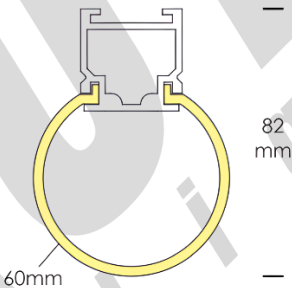

LED light tube combines a robust aluminum body (ensuring excellent heat dissipation) with high-quality lighting performance. With a power of 22W, it delivers an effective luminous flux of 1753 lm and diffuses a warm white light of 3000K. Its major advantage lies in its high color rendering index (CRI > 90), ensuring a very faithful, natural and comfortable restitution of colors in space.
