

ALUMINIUM LED STRIP PROFILE

This aluminium LED strip profile is a professional mounting solution designed to accommodate flexible LED strips in residential, commercial, and architectural lighting applications. Manufactured from high-quality extruded aluminium, it provides excellent heat dissipation, improving LED performance and extending the lifespan of the lighting system.

TECHNICAL SPECIFICATIONS

Reference	EK01212ALS
Material	Aluminium +PC COVER
LENGTH	1m/2m/3m (Other Length)
DIMENSION	12*12mm
LED QUANTITY	120 LED/M
Lifetime	50000
Certification	RoHS, FCC, CE

Dimension (mm)
